

Which Option is Right For Your Business?

Option	Premise	BYOL	Subscription
License type	Perpetual	Perpetual	Time Based
User Type	Concurrent	Concurrent	Concurrent
Summary	Works on your networks with products you own	Move your GoldMine (and other apps) to commercial hosted network	Get your crm started with less set up
Benefits	<p>Lowest cost over time</p> <p>Local integrations</p> <p>Faster Performance</p> <p>Control over data</p>	<p>Reduce reliance on in-house IT</p> <p>Run other apps that may not be subscription based</p>	<p>Easier set up</p> <p>Add subscriptions for other products</p> <p>You can move your files to premise later if you want to</p>
Great for:	Inside users, integration with other applications	Want to continue using application but want to minimize it infrastructure issues	Offices with lots of remote users or no server
Compared to other products:	<p>All in one and most affordable</p> <p>Better integrations</p>	<p>You move your files to cloud</p> <p>Run other apps with GoldMine in one subscription</p>	<p>Same application and files</p> <p>Add other applications to same subscription - can't do that with other SaaS solutions</p>
